PROFESSIONAL SUMMARY

Motivated and detail-oriented Full Stack Developer with hands-on experience in Java, Spring Boot, ReactJS, NodeJS, SQL, and MongoDB through real-time projects and application development. Skilled in backend API development, frontend enhancements, database operations, debugging, and building scalable web applications.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: ReactJS, HTML, CSS

Backend: Spring Boot, NodeJS, REST APIs

Databases: MongoDB, SQL Server, MySQL

Tools: Git, GitHub Copilot, Postman, Swagger

Concepts: OOP, Agile Methodology, Debugging, CI/CD Basics

PROFESSIONAL EXPERIENCE

Software Engineer Trainee | Imaginnovate Tech Solutions | Sep 2024 – May 2025

- Built backend applications using Java, Spring Boot, and MySQL for database operations.
- Developed REST APIs and implemented CRUD operations for enterprise applications.
- Designed entity relationships using JPA and Hibernate with MySQL.
- Tested APIs using Postman and documented endpoints using Swagger.
- Participated in debugging and feature enhancements for an E-Commerce Backend Application.

Software Engineer | J.B. Hunt Visibility Mobile Services Application | Jun 2025 – Sep 2025

- Enhanced shipment tracking features for a real-time logistics application.
- Implemented frontend enhancements for pickup, order, and delivery tracking.
- Developed a Push Notification Service using Java and Spring Boot for shipment updates.
- Performed deployment validation and testing in development and production environments.
- Collaborated in Agile sprint-based development with onsite and offshore teams.

Full Stack Developer | AAPS Placements Training and Consulting Services | Dec 2025 – Present

- Developed a responsive business website using ReactJS, NodeJS, and MongoDB.
- Built frontend pages and integrated backend APIs for seamless data flow.
- Implemented CRUD operations and database connectivity using MongoDB.
- Deployed the website by integrating Hostinger domain with Netlify hosting.
- Performed debugging, enhancements, and ongoing website maintenance.

PROJECTS

Hotel Booking System

- Developed RESTful APIs for registration, room management, and booking operations using Spring Boot.
- Designed entity relationships using JPA and Hibernate.
- Managed SQL Server database operations and CRUD functionality.
- Tested APIs using Postman and performed debugging.
- Implemented booking history and reservation tracking functionality.

Driver Drowsiness Detection System | Jan 2023 – Apr 2023

- Developed a real-time driver drowsiness detection system using Python and OpenCV.
- Implemented eye and facial movement detection to identify drowsiness.
- Integrated OpenCV, dlib, and SciPy for face and eye detection.

EDUCATION

Bachelor of Technology (B.Tech) in Electronics & Communication Engineering

Rajiv Gandhi University of Knowledge Technologies (RGUKT-SKLM)

2019 – 2023 | CGPA: 8.3

CERTIFICATIONS

- Java, Spring Boot & SQL Training Certification – Imaginnovate Tech Solutions
- UI Full Stack Web Development Training Certification – Naresh i Technologies
